Featured Feedback

This section includes feedback from real learners and tutors, demonstrating Yan Xu's contributions as a volunteer tutor.

> Thank you! It was a really fun and interesting course, and I definitely learned a lot! The exercises usually made sure that we(or at least for me) can use the material that we learned! This will be really helpful in the future!
> :)

> the sessions have been very helpful! I especially like that we take up the homework since sometimes the questions can be a little confusing. Thanks!

> Thank you for taking the time in class to make sure that we understand the concepts! It makes everything easier to understand :)

> thank you! A lot of content that I think would have been hard to understand at first was clarified when I ask questions!

> amazing class, keep it up

> really helpful

> It was a very productive and insightful lesson.

> Thank you so much for this session in Python. I really liked it!

> Thank you for this session! I enjoyed learning from you.

> I thought that you explained each and every part of the lesson very well

> I appreciate the patience you have to help students when needed

> I haven't done any coding on python, and I'm really glad that this session made it easy for me to understand!

> It was much easier to download the things required with your guidance. Thanks!

> The session was very good and interactive

> thank you for taking time to teach us! I really enjoyed learning more about this topic(It was really interesting, and I had no idea there was so much going on behind AI!), and I hope there are more hands on activities and more interactive work!

> I think this tutor was very good in keeping us engaged in the material and good in giving relatable examples.

> Thanks for the session! The explanations are very useful.

> Thank you for this session! I had lots of fun.

> The lesson was very good and was easy to understand

> The explanations were good and easy to understand

Thank you! The challenges were fun.

I like the explanations!

Thanks for this session. The explanations are great!

Thanks for the session! The explanations were good and your comments were helpful.

Thank you for this session! I learned a lot of new things.

The session was very good and helped everyone.

Thank you for being super patient and answering all of my questions in the chat. I really like how you introduced short cuts (sout) and made sure to explain important concepts twice to really help us understand the new info. Thank you for also emphasizing the things that are crucial to remember, because that helps with memorization! I also really appreciate the slow and steady pace you went at to help us digest all the new and foreign code. You were super helpful and kind even though I joined late, and provided me all the relevant links to ensure I had a sufficient setup. I enjoyed the session quite a bit, and am looking forward to the next one. Thank you!

Thank you for this session! It was very fun and informative.

ethan is really good at coding

ethan is best teacher in the world fr

Thank you for not only teaching us coding, but also the visual studio code

thank you for teaching us programming!

Loved how you gave practice problems! Your explanations are very clear.

this was a very informative session with great explanations, thank you!

i like how he asnwers questions when people ask

i like how he talked us through the lesson very clearly and does exercises

Thanks for taking the time to write down your explanations in notes.

It very helpful for learning Python

I love how the teacher tries to do everything to help us!

You were an excellent teacher!

I love my time in this class, I learned many things from him. I would highly recommend him if you want to learn any computer science. Thank you for everything you taught us, this will be unforgettable experience with him. :(

he is very good, i reawlly like him and he taught me alot

I love he examples and explanations that he put into the presentation.

Love the detail put into the explantions.

When I missed a week of class, the teacher was able to gave me a brief review of what he taught

this was extra fun

Love the detail explained through every concept and a given example.

The teacher helped me with any questions or problems I had

he help me a lot on my question and is very patient

Super interesting! i love the way he teaches it

Thank you for this session. Love the thorough explantions.

he was good at explaining the subject

Really enjoyed the atmosphere!
and loved your explanations.

Ethan is the best coding teacher ive had so far teaching me how to code and finally i have partly developed a game on roblox along with my other friends that are developers

Glad to see explaining in details to newbie like me

very helpful

Thank you for the session! Your explanations and answers to the questions I send in chat are very helpful.

Thanks for the extra debugging feedback, it helped a lot

This session was very thorough and explained very well!

Thank you for the clear and concise explanations, building from the ground up so it is super easy to understand!

thx for helping me learn!
